FOODWARE & MORE

JULY 2025

EXTRAORDINAIRE!

FOODWARE & MORE

Consumer plastics have not only redesigned human behaviour, they have also simplified lives across all strata. From fragility of glass and earth, the containers attained near immortality of plastics while the metallic buckets shed weight to reincarnate into light weight durables.

Jaypee, one of the earliest vanguards of this change, continues to redefine the wonders of plastics as the material of the new millenium.

The Jaypee range of Foodware & More which is depicted in this catalogue is a story of excellence derived from experience of over 40 years.

JAYPEE –where a team of plastic technologists is continuously developing, innovating and responding to evolving customer expectations.
